

1

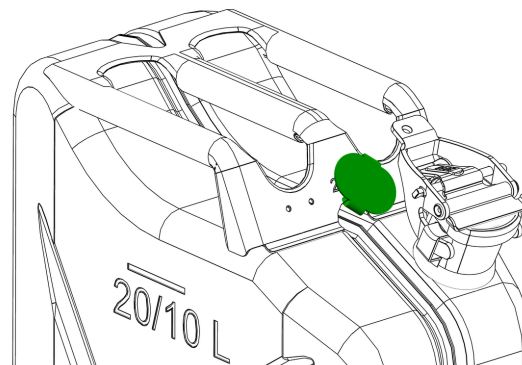

Select an appropriate label for fuel – *Diesel* or *Petrol*. The label without inscription is intended for any other type of fuel, the name of which is handwritten. We recommend using the permanent water-resistant marker

2.a

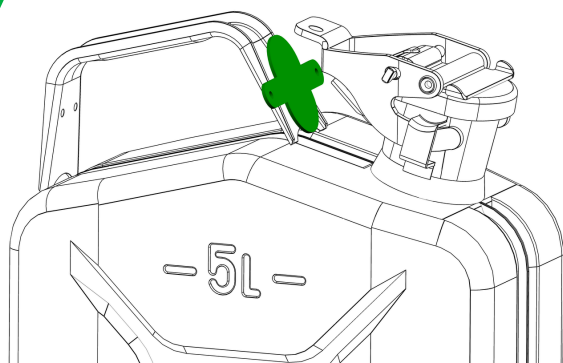

To add the label to 10L and 20L cans, fold one of the metal legs and hook it behind the handle of the can from below

3.a

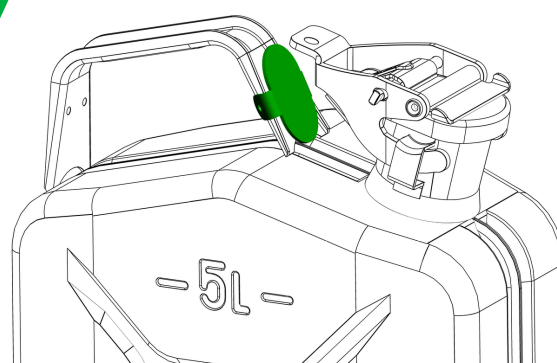

Fold the other metal leg to keep the fuel identification label safe

2.b

To add the label to 5L cans, attach it to the handle of the can

3.b

Fold the metal legs for keeping the fuel identification label safe
